Mobile Websites

INNOVATE AND INVITE YOUR CUSTOMERS TO ACCESS YOUR WEBSITE FROM ANYWHERE, ANYTIME!

ADVANTAGES

✓ FLEXIBLE AND POWERFUL CONTENT

With ergonomics adapted to mobile phones, this unique kind of website enables you to present essential content to mobile users, in an easy format that is quick to overview.

✓ SO-LO-MO

Social. Local. Mobile. This new marketing technique takes advantage of the growing number of mobile users in order to generate sales when they pass through your region or during their searches.

✓ GEOLOCALIZATION

With the geolocation function, mobile users looking for a service will get search results based upon their current location and a travel itinerary directly to your business.

✓ INSTANT UPDATES

Vertisoft can align your mobile site's content to your website. This way, you benefit from centralized content management.

Your customers want to find a product or service when they need it, whether it's while traveling, during vacation, while shopping, or waiting for the bus. With a mobile version, you can be accessible whenever, from wherever.

For you, Vertisoft can:

- Propose strategic content adapted to the needs of mobile users;
- Create sleek, ergonomic Web designs;
- Incorporate QR codes with your promotions;
- Maximize your return on investment (ROI).
