A COMPLETE OFFER

Vertisoft can support all your IT infrastructure needs.

NETWORKS

A regular monitoring of your infrastructure's key components is essential to your business operations. Vertisoft can support and maintain these networks components while ensuring the implementation of effective work done by trained and certified resources.

- Installation, Migration or Optimization of Computing Equipment;
- Implementation of the Virtualization Concept;
- Establishment of Network Diagnosis, Master Plan, Contingency and Succession;
- System Surveillance;
- Preventive Maintenance Program.

SECURITY

Reduce the critical elements and correct the potential weaknesses of your data's security with our information security experts. They will guide you in making the right moves with recommendations to always better protect your intellectual property:

- Creation of secure links between workstations and servers (VPN);
- Audit and Consulting in technological security;
- Installation of Security Software: viruses, SPAM, spyware, etc.;
- Prevention and Intrusion Detection.

INFRASTRUCTURE

Access a full range of well-known products! Having significant purchasing power and partnerships with the biggest names in the industry such as HP, DELL, Microsoft, Lenovo, VMWare and Veeam, we can certify our personnel's technological expertise and provide you with more than 250,000 quality products:

- Virtualization and storage solutions
- Servers, switches and firewalls
- Workstations, laptops and tablets
- Peripherals (printers, etc.)
- Software and licensing

A prompt and courteous service, at all times!
